Simplifying IT

4CEE IT Solutions INC

COMPANY

We provide information technology services that solve full range of business challenges. We incorporate your vision for success with computer networking; repair and upgrade, web designing, maintenance and any additional technology to make sure your IT needs are handled in a best possible manner.

We take a team approach in advising clients on the right IT Solution for their business and help them in achieving their business objectives in a cost effective way.

SERVICES

4CEE IT Solutions Inc provides services that solve full range of Information Technology challenges

WHAT WE DO

From conception to implementation to protection, we help clients make technology investment decisions that are consistent with overall business objectives.

- E-Store (Computer, Monitor, Printer and More)*
- Computer/Laptop Hardware Repair*
- Virus Removal, OS Repair/Reinstallation*
- Wireless/Wired Network Setup/Maintenance*
- Software Development & Maintenance*
- In-Home/Office Repair Services*
- Web Designing & Maintenance*
- IT Security Setup (IDS, IPSEC, SPAM, Firewall)*
- Testing*

Web Designing

By definition, designing implies creativity. Our three phase process (Plan, Design and Launch) ensures customers experience a smooth transition to a better web presence. Do not be fooled whenever you are told the process will be fast. For your designing to make marketing sense, we take pride in discussing your ideas and putting them into virtual format.

Wireless or Wired Network Installation and Maintenance

We install/setup wireless or wired network per user or business need. We help small business in minimizing the costly effects of equipment failure with our maintenance contracts:

- Plan the retirement and/or reallocation of equipment before it ends up costing more
- Perform monthly, quarterly and annual diagnostic visits to ensure optimal network function

Computer/Laptop Hardware Repair

We provide maintenance and upgrade services for home and small business users. We aim to respond to every call-out quickly and within 48 hours, whether it's Evening or Weekends for jobs as small as installing a new monitor to completely overhauling and upgrading a tired system! We provide In-Home/Office services

Virus Removal, Operating System Repair/Re-Installation

Virus, Worms, Trojans, and RootKits have become an everyday threat to businesses and home users. "Malware" programs are continually spreading more effective, faster, and harmful viruses, which can cause extreme system disruptions. We provide comprehensive and cost effective solution to both home and small business users.
